

CALIFORNIA CENTER FOR POPULATION RESEARCH WORKSHOP

Demographic Computing

Matthew Lahmann, UCLA

Wednesday, December 1, 2021

12:00-1:30pm PT

This workshop will dive into the 3 main computing resources that CCPR offers to affiliates, including its remote and on campus offerings. There will be time for participants to sign up for Hoffman2 and TS2. Once signed up, participants will have access to software and hardware to conduct their research. Finally, the workshop will cover how to use these computing resources, identifying what resource is better to use for different computing project scenarios.
